Dear Registered Professional:

Congratulations on obtaining professional registration in Ohio.

You are authorized to obtain a Seal for use as required by law on your engineering plans, specifications, designs, documents, surveying plans, plats, property descriptions and reports. The Seal must bear the words "State of Ohio," your name, your serial number, and the legend "Registered Professional Engineer" or "Registered Professional Surveyor." The Seal is to be the one known as size #1 (1-3/4" diameter for a rubber stamp seal, or 1-5/8" diameter for an embossing seal). The Board does not supply seals. You may purchase your seal from any manufacturer that produces office stamps and seals.

The Board wishes to emphasize the importance of keeping the Board office informed of any change in your mailing address. This is necessary in order that the Board may know where to mail all official notices, including your renewal application, so that your registration in the State of Ohio will not expire.

Welcome to the community of professionals in Ohio. If you should have any questions concerning your professional registration, please do not hesitate to contact the Board office.

Yours truly,

Mark T. Jones, P.S.
Executive Secretary
